Medical Statement to Request Special Meals, Accommodations, Milk Substitutions

A licensed medical authority is defined as an individual who has the authority to write a medical prescription. In Utah, this includes:

- Medical Doctor (MD)
- Physician's Assistant (PA)
- Osteopathic Physicians (DO)

- Advance Practice Registered Nurses (APRN)
- Naturopathic Physicians (ND or NMD)

Definition of Disability

Under Section 504 of the Rehabilitation Act of 1073 and the Americans with Disabilities Act (ADA) A Person with a Disability is defined as: any person who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such impairment, or is regarded as having such an impairment.

Physical or Mental Impairment-(a) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive, digestive, genitor-urinary; hemic and lymphatic; skin; and endocrine; or (b) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

Major Life Activitles-functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

Major Bodily Functions- functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, cardiovascular, endocrine, and reproductive functions

Record of Impairment-having a history of or have been classified (or misclassified) as having a mental or physical impairment that substantially limits one or more major life activities. Individuals who take mitigating measures to improve or control any of the conditions recognized as a disability, are still considered to have a disability and require an accommodation.

USDA Guidelines for Accommodating Special Dietary Needs

Disability-Institutions and agencies participating in federal nutrition programs <u>must</u> comply with requests for special dietary meals and any adaptive equipment with a documented disability and completed request form.

Non-disability-institutions and agencies participating in federal nutrition programs <u>may</u> comply with requests for non-disabling medical conditions. Accommodations will be made on a case-by-case basis. However, if accommodations are made for a specific medical condition, complete requests for the same medical condition for other participants must be accommodated.

Fluid Milk Substitutions-Fluid milk substitutions apply to non-disability requests. Institutions and agencies participating in the federal nutrition program may accommodate complete requests with a USDA approved non-milk equivalent. If accommodations are made for one child requesting a fluid milk substitute, accommodations must be made for all children requesting a fluid milk substitute.

	School/sponsor internal use only	
Marked	as disability or treating as disability (Required to accommodate request.)	
Not mar	ked as disability	
	School/sponsor is accommodating request	
	School/sponsor is not accommodating request
